WHY COMMERCIAL PROPERTY?

THE SMARTER ALTERNATIVE TO BUY-TO-LET

Residential landlords today face higher costs and heavier regulation: reduced mortgage relief, extra stamp duty, rent controls in some areas, and compliance headaches. Commercial property operates under a different framework:

WHY ENGINE WORKS?

Attractive Yields – small-bay commercial units typically generate gross yields in the 7–8% range, compared with 3–5% often seen in residential BTL

Tax Advantages – no 3% SDLT surcharge, fewer ongoing compliance costs

Tenant Profile – businesses often sign longer leases, reducing turnover and void risk

No Rent Caps – commercial rents are agreed between landlord and tenant, often with inflation-linked reviews

Flexibility – investors can hold for steady income or sell to realise capital growth

With units starting from £270,000, Engine Works offers an accessible way to diversify into commercial property — a sector positioned to benefit from today's market rules.
